(Note: Images and prices have been compiled from catalogs dated 1902 to 1910. Additional information is available from the *Good Old Days* by David L. Cohn.)

How Today's Items Have Evolved in Time

For each item found in the Sears catalog, find its replacement in a current newspaper, magazine, Internet ad, or catalog. Number your items so that they correspond to the ones found in the Sears catalog. Cut them out and place them below.

A large, empty rectangular box with a black border, intended for students to paste cut-out items from newspapers, magazines, or catalogs. The box occupies the majority of the page below the instructions.

Lifestyle Changes as Seen from the Sears Catalog

For each of the goods marketed in the Sears catalog, answer as many of the following questions that apply.

	Prior to the Industrial Revolution	The Industrial Revolution	Modern Times
	Describe in detail what each item replaced and what life was like before that item existed.	In what ways did this item affect physical labor or markedly increase the quality of life enjoyed by most Americans?	Describe in detail how today's items have evolved and replaced those in the catalog.
